

Lubell Labs Complete Air & Water Sound System with Bluetooth (SKU: CAWSS)

Lubell Labs Inc. of Columbus Ohio USA proudly presents the CAWSS System - a full-featured Complete Air & Water Sound System for lap swimmers, synchronized swimmers, snorkelers, and divers who insist on air & underwater sound that is **LOUD & CLEAR**. This remarkable system holds many patents, and carries the distinction of being the highest performance state-of-the-art system ever offered to the sport of swimming.

Lubell Labs invented the piezoelectric underwater speaker in 1965, and holds the patent for this unrivaled high-efficiency design. Not only is the design efficient, but also extremely dependable and long lasting, due to its PVC and stainless steel construction. Because of this remarkable engineering feat, one Lubell underwater speaker outperforms up to 50 of the competing brand's products, greatly lowering cost and simplifying installations. And due to this advantage, Lubell underwater speakers are demanded by leading professionals and organizations including NASA, the US Armed Forces, Olympics, Aquarius Underwater Habitat, Monterey Bay Aquarium, Bellagio, Le Reve, Sea World, Weeki Wachee Springs, Woods Hole Oceanographic Institute, and have been used in most blockbuster movies having underwater footage including Abyss, Armageddon, Flipper, Harry Potter, James Bond, Pearl Harbor, and Waterworld.

Some of the key features of the CAWSS system include: 1) **Bluetooth**, for wireless connection of song and sound files from your phone, tablet, or computer; 2) **USB SD player/recorder** with remote plays all your MP3, WMA, and WAV files, and records input via Bluetooth and mixer; 3) **Patented IrDA handheld UHF wireless mic** with rugged metal body allows clear paging of audience and coaching of swimmers; 4) **Separate volume controls for air and underwater speakers** allows independent adjustment of each zone; 5) **Twin high-power 100 watt digital amplifiers** for air and underwater speakers means extremely powerful sound with long battery life (up to 10 hours); 6) **Automatic Digital Limiter** prevents output distortion of music; 7) **Patented high-efficiency Lubell LL916 underwater speaker** with FINA required transformer box provides unrivaled clarity and range (up to 500 meters); 8) **Aux Output** for sending music to "house system" at large venues; 9) **Universal 100-240V AC adapter/charger** with international safety compliance markings allows worldwide use of system.

Includes:

- 200 watt wireless sound system with Bluetooth, USB SD player/recorder, mixer with 2 mic/line inputs and 1/8" stereo aux input. TW CE 8518.50.0000 23 lbs / 16.7"H x 11.4"W x 9.9"D
- Wireless mic, UL Listed AC adapter/charger. TW CE 4.75 lbs / 3.5"H x 14"W x 13"D
- Lubell LL916C underwater speaker with 25' cord and 3-pin connector. US CE 8518.21.0000 17 lbs / 11"H x 11"W x 7.75"D
- AC202C audio isolation transformer box. US CE 8518.90.8000 3 lbs / 2.5"H x 4.7"W x 5.2"L
- PDF Literature: [Brochure \(2.07 MB\)](#)
- **SUGGESTED RETAIL PRICE: \$3107** *Discounts available to swim teams, pool supply companies, pool and audio contractors, SCUBA shops, audio integrators*
